Roundslings - Storage

Store synthetic slings in a clean, dry and well ventilated place. After use make sure they are dried , the label is intact and that there is no damage.

NEVER store slings on the ground or floor.

NEVER store slings in direct sunlight, ultra-violet light or florescent lighting.

NEVER store slings near atmospheric or liquid chemicals.

NEVER store slings in an area where they can be mechanically damaged.

ALWAYS inspect slings prior to use, if you have any doubts find a competent person/specialist.

When drying roundslings, **ALWAYS** dry them just by hanging them in normal air, **NEVER** near a heat source.
